What is 30 X 30? Learn what is behind the agenda to permanently protect 30 percent of America’s land and oceans, and how this is being implementing in our nation today. This will affect everything, including illegal immigration

The 30x30 initiative is an international agenda to permanently protect, in its natural state, 30 percent of the world’s lands and oceans by 2030. The program was launched in America by President Biden through Executive Order 14008 on January 27th, 2021. The Biden Administration claims the program is necessary to help stop the “climate crisis,” and yet they fail to provide substantive details on how the program will be implemented.

American Stewards confronts the policies eroding property rights, such as the Biden Administration’s 30 x 30 initiative. The organization also works directly with local communities to help protect the continued use of our natural resources – the production of our food, fiber, energy and minerals.

American Stewards of Liberty is a national private property rights organization founded in 1992. Margaret has been interviewed by Douglas Kennedy with Fox News, Brannon Howse on Lindell TV, and Epoch Times TV.

Margaret Byfield, Executive Director of American Stewards of Liberty,

We no longer serve meals at our meetings, but you are invited to bring snacks to eat and to share. We share sandwiches, cookies, cakes, dips, crackers — munchies that we all enjoy with our friends.

TFIRE furnishes coffee and water at no charge.

We welcome your ideas.

We are in the midst of changing times and we want TFIRE to continue to be relevant to our members and also to those newcomers who will be joining us.

You are invited to come to the meeting early (5:00 or so) to help us set up the tables and chairs before meeting time and get to know more of the other members and help us greet newcomers to TFIRE.

We want our visitors to feel welcome.

Please stop by the registration desk as you arrive so we can make sure we have your up-to-date mailing address, email address, and phone number. It is also a good time to pay your membership dues for 2023. \$25 for a single person and \$35 for a couple. We need to raise this because it has been this same amount since 1990 and you understand what inflation has done to everyone! In the meantime, please consider a donation

Please call your representative often.

Keep abreast of the issues and let them know how you want them to vote.
